GENERAL
NOTICE.TRADE WITH
NEPAL.

A detailed account of the traffic registered is given separately for each of the States in the following pages.

5. In his General Administration Report for 1886-87, the Commissioner of the Bhagulpore Division pointed out that the three registering offices in each of the sub-divisions of Kissengunge and Arrareah in the district of Purneah were so far apart from each other that half the traffic between Bengal and Nepal passed unregistered by the minor routes not in the line of the registering posts, and that accurate statistics could only be collected by increasing the number of registering offices. In accordance with the Commissioner's recommendation the Lieutenant-Governor sanctioned the opening of the following five new stations with effect from December 1887:—

In the Kisengunge sub-division.

Bansgaon.
Bhatgaon.
Gandharpdinga.

In the Arrareah Sub-division.

Kouri.
Kusumbah.

Bansgaon station was kept open for two months only, *viz.* December 1887 and January 1888, after which the office was removed to Korhabari Hât, through which much traffic passes to and from Nepal. The total value of the trade registered during the past three years, is shown in the following statement:—

YEARS.				Imports from Nepal.	Exports to Nepal.	Total.
				Rs.	Rs.	Rs.
1885-86	93,18,431	52,27,817	1,45,46,248
1886-87	1,02,77,228	52,90,285	1,55,67,511
1887-88	1,12,34,228	73,51,720	1,85,85,948

The foregoing statement shows an advance in the aggregate value of merchandize carried last year of 19·39 per cent. in comparison with 1886-87, and of 27·77 per cent as compared with 1885-86. In the import trade, the figures of 1887-88 were 9·31 per cent in excess of those of the preceding year, while under exports, the increase amounted to so much as 38·96 per cent. There was an increase in almost every class of goods, especially in food-grains (769,788 maunds) and piece-goods—(Rs. 2,77,024 in European piece-goods, and Rs. 1,40,481 in Indian piece-goods.)

6. The principal staples comprised in the import and export traffic during the past three years are exhibited in the following statement. The figures shown here, however, are exclusive of the registered trade with other provinces which passed through Bengal:—

The largest increase occurred in the quantity carried *via* Kutkenwa, which is on the high road to Katmandoo. The total value of unsold fabric which was returned to British territory fell off from Rs. 50,634 in 1885-86 to Rs. 24,011 in 1886-87, and to Rs. 20,361 in 1887-88. The traffic in Indian piece-goods also showed a great improvement, the total value of the exports being 76·93 per cent. better than in 1886-87, and 88·86 per cent. better than in 1885-86. 28. It was explained in the report for 1886-87 that the figures submitted in the previous report did not distinguish trade registered at one station only from trade registered at both, and that in order to avoid a double record of trade at the stations of Kalimpong and Rhenok, the Deputy Commissioner had revised the figures of 1885-86 and 1886-87, showing separately the trade of Bengal with Tibet and Sikkim during those years. The figures for the first eight months of the year 1887-88 have also been revised by him in the same way, and he has given comparative figures for certain articles which were omitted in the returns of 1886-87, thus slightly altering the total value of the trade shown in the last report. Since December 1887, however, arrangements have been concluded, by which the actual trade passing between Bengal and these States is shown in the traffic returns. Details of this traffic, month by month, as well as for the whole year, are shown in the statements appended to this report, and these should be substituted for the statements previously

submitted to the Government of India in respect of these two sections of the trade.

30. The decrease in the Tibetan trade is due to the existence of an uneasy feeling on the frontier which culminated after the close of the year in the entire cessation of traffic. The trade with Sikkim showed an improvement both under imports and exports, the total increase in value, amounting to Rs. 94,078, or 60 per cent. on the figures of 1886-87 and a corresponding increase on those of 1885-86. The following statement shows the fluctuations of traffic, month by month, during 1887-88, as compared with the figures of the preceding two years:—

31. *Trade with Tibet.*—In the import traffic, the large decrease in April 1887 was due to the cessation of the silver trade, while the noticeable increase in November and December 1887 and January 1888 occurred in raw wool, yak tails, and woollen goods. In the case of exports, the large decrease between April and July 1887 was under the heads cotton and woollen piece-goods, horses, indigo, and metals, while the increases in November 1887 and February 1888 were under European piece-goods.

32. *Trade with Sikkim.*—The marked increase in the import traffic in December 1887 and January 1888 was due to a brisk trade in vegetables and

pulses. The increase in the exports was pretty general over all the months, and was for the most part due to the advance under piece-goods and tobacco.

TRADE WITH
TIBET AND
SIKKIM.

33. The following extracts are made from the Deputy Commissioner's monthly reports on the condition of the frontier trade:—

April 1887.—“Trade with Tibet continues to be at a standstill. I have been informed that many traders have returned from Phari in despair. If this is the case, our trade, which we have fostered with so much care for years past, has received a most severe blow, from which it will be long in recovering. I am also told that the Kazi of Yantza in Bhutan has been asked to try and get some of the merchandise over the Senohala Pass, and so through Lepcha.

"It is noticeable that even here tobacco is a favourable article with smugglers.

June 1887.—"Information has been received that the inhabitants of the Ohumbi Valley have been allowed to cross the passes, hence we may expect a slight increase in trade."

"There is a growing demand for wool, which, however, cannot be met until general trade with Tibet has been put on a more satisfactory footing.

July 1887.—"Trade with Tibet is still insignificant. The Rangli bridge has been washed away, and the Edgar road is in bad order, so transport at present is exceedingly difficult.

August 1887.—"No change in our relations with Tibet has taken place since last report.

September 1887.—"The Tibet trade, such as it is, is still confined to Chumbi Valley inhabitants."

Owing to political complications on the frontier, the trade with Tibet has entirely ceased since the close of the year.

34. The total value of the chief items comprised in the import trade during the past three years, is given below:—

DUTIES ON THE
NEPALESE
FRONTIER.

39. The local officers have reported at considerable length the various changes in the rates of duty levied by the Nepalese authorities on frontier trade, but the information given is of a very detailed character and it does not seem necessary to reproduce it in this report. The tendency is towards a considerable increase on all articles of merchandise, and the rates of fees vary very much in different localities.

TIBETAN SALT.

40. Last year the total quantity of untaxed foreign salt imported into British territory from trans-Himalayan sources fell off by 27·31 per cent. on the returns of 1886-87, as will be seen from the comparative statement below :—

				1885-86.	1886-87.	1887-88.

The decrease was almost entirely in the imports into Darjeeling, which fell off by 27·76 per cent. as compared with 1886-87, and by 16·46 per cent. in comparison with 1885-86.
